## AIMS & OBJECTIVES

My aim is to serve the humanity through the field of Medicine and Technology. Play part in advancement of Medicine as we phase into a world constantly facing new dangers of ever evolving Pandemics. Help the less fortunate wherever possible so that there is equity in the world when it comes to provision of health services.

My specific objectives include:

- Better understanding of Medicine for betterment of patients.
- Goal oriented treatment of patients.
- Creating self-awareness among masses about hygiene and good health.
- Creating an atmosphere of learning & character building while working alone or in a group.
- Learning about advancements happening in the field of Medicine every day.
- Generate a sense of speculation through everyday learning and experience.
- Broadening of thoughts & establishing acceptance of diversity in treatments with an only goal being the good recovery of the patient.
- Giving welfare services to people wherever in need. Thus eliminating any chance of unequal provision of health services.
- Always keeping the Hippocratic Oath in mind when treating a patient.
