

Dr. Aizaz Ullah Khan

Profile:

Carrying out the idea of becoming a medical professional, I have always been giving my best during my studies to acquire a systematic and comprehensive understanding of the fundamentals of medical sciences. Throughout the entire process at the institution, I have always combined theory with practice in order to improve my understandings of theoretical knowledge and enrich my hands-on experience. High concentration has been put on achieving wide knowledge not only through the classroom teaching materials but also through other materials such as internet sources. Possess strong analytical and problem-solving skills with the ability to make well-thought out decisions.

Objective:

Seeking a challenging position with a dynamic organization to practice services related to medicine and surgery to enhance my practical skills, grow as a medical professional, and develop my career.
