JULY 20, 2023

Dear respected sir

I have a bachelor degree in Curative Medicine from Kabul University of Medical Science (KUMS), the degree covers different health topics for instance: cure of diseases, Primary health care, health promotion, increasing life expectancy, drug abuse, mental health, babyhood life care, making suitable lifestyle for obese and diabetic people, furthermore it covers conducting cancers, therefore I am looking to develop special skills in this areas and build successful career and promote Afghan people's health.

I have excellent communication and can communicate with all types and multicultural societies.

I have enough talent in operating as a multi-tasking employee in an organization. I am able to work under challenging and stressful conditions and for long hours. I am self-motivated, a quick learner and a good team player.

Please find enclosed my CV for further details.

Thanks for your time considering my documents and looking forward to hear from your side.

Best regards,

**Samim Qasimi**
