ABOUT ME

Experienced Data Analyst with a background in Data Science; Skilled in locating process improvement opportunities, analyzing data for trend identification, and developing reports. Proficient in utilizing Power BI to create interactive dashboards and transforming raw data into meaningful insights. Successfully transitioned from a Data Research Analyst to a Data Analyst role. Demonstrated expertise in gathering and analyzing data from multiple sources. Passionate about leveraging data-driven insights to facilitate informed decision-making. Seeking opportunities to contribute to organizational success in a data-centric environment.
