PROFILE

Striving to make cutting-edge tech accessible for all

I am a software engineering graduate from Riphah international university I am working on a few research projects.

Technology inspires me with its transformative power and endless possibilities. I have hands-on experience with Artificial intelligence and Machine Learning, Deep learning , Microsoft Azure (Python), Data Science Analytics . While I continuously expand my skill set, my unwavering determination and eagerness to learn drive my growth and innovation.

Outside of work, I'm an amateur chef whose passion for global cuisines reflects my creative and detail-oriented approach to tech.
