[abeera-saeed-chaudhary-a1783b245](#)

PROFILE

As a career-driven and result-oriented Data Science student, I am eager to work in collaborative environments and apply my skills to tackle real world challenges.

SKILLS

Machine Learning

Data Analysis

Data Visualization

Pattern Recognition

Statistical Inference

Tableau

Android Studio

Arduino

SQL (Oracle)

Python

R

EDUCATION

M.sc. Data Science 2022-Ongoing
National University of Science and
Technology

B.sc. Information Technology 2017-2021
Bahauddin Zakariya University Multan

EXPERIENCE

Techoid.co
Technical Writer

Baba Spices
Product Analyst

CERTIFICATIONS

Data Science Course
Organized by Japan Centre

**Preparing your research paper for publication: An
IEEE Perspective**
A&J Def Tek Consultants

Inter-Universities Project Exhibition
institute of computer science and information
technology

PROJECTS

Automatic Motor Switching System
Using Arduino: C++
Hardware: Ultrasonic sensor *HC-SR04* and Water
level sensor

Water Quality assessment
Machine learning algorithms (Ensamble Learning)

Recommender system
Clustering Techniques using Call data

Image set classification
Using Deep Extreme Learning Machines

Speaker Identification
Using Fourier Fast Transformation and
Convolutional Neural Networks

Summarizing Online Reviews: Ecommerce
Data Mining and Machine Learning Techniques
for summarization

Bank Loan Default prediction system
Predictive analysis and pattern recognition using
Data Mining and Machine Learning techniques
on historical and statistical data
