PROFESSIONAL EXPERIENCE

Medical Officer, Islamabad International Hospital

08-/2023 – Present

- Provide comprehensive medical care to patients in various hospital settings, including wards, post-operative surgical units, and the ER.
- Conduct thorough patient assessments, including history-taking and physical examinations, to establish accurate diagnoses.
- Manage and monitor the condition of inpatient and outpatient cases, ensuring appropriate treatments and interventions are administered.
- Maintain a high level of accuracy and completeness in patient records, ensuring regulatory compliance and efficient care coordination.
- Played a pivotal role in critical patient care scenarios, contributing to positive patient outcomes.

Medical Officer, Family Medical Complex

07-/2023 – 10/2023

- Conducted comprehensive and empathetic consultations with outpatient cases, including thorough history-taking and physical examinations.
- Accurately diagnosed medical conditions, developed treatment plans, and prescribed medications or therapies as necessary.
- Effectively managed and monitored patients with chronic illnesses, ensured regular follow-up and adherence to treatment regimens.
- Maintained meticulous electronic health records (EHR) and ensured the accuracy and completeness of patient documentation.
- Developed patient-friendly educational materials and conducted health promotion sessions, resulting in increased patient understanding of their conditions and better self-care.
- Demonstrated exceptional skills in managing medical emergencies within the OPD, receiving commendation for quick and effective responses.

Medical Officer, Islamabad Medicare Hospital

03/2022 – 07/2023

- Effectively managed a wide range of acute emergency cases in the ER, including critical and time-sensitive situations.
- Conducted rapid yet comprehensive patient assessments, including history-taking and physical examinations, to determine the severity of conditions and prioritize care.
- Performed critical life-saving procedures such as CPR, intubation, and administering emergency medications.
- Collaborated closely with emergency response teams, nurses, and specialists to ensure cohesive and efficient patient care.
- Utilized advanced diagnostic skills, including interpreting medical tests and imaging, to make accurate and timely diagnoses.

- Provided comprehensive medical care to patients across various rotations, including **pediatrics, general surgery, general medicine, oncology, and plastic surgery**.
- Conducted thorough patient assessments, including history-taking and physical examinations, to establish accurate diagnoses and treatment plans.
- Developed and implemented individualized treatment plans, prescribing medications, therapies, and surgical interventions as appropriate for each specialty.
- Participated in emergency care scenarios, demonstrating the ability to handle critical situations, stabilize patients, and initiate immediate treatment.
- Successfully managed pediatric cases, focusing on child-friendly care, effective communication with young patients, and compassionate support for parents.
- Acquired hands-on experience in plastic surgery, assisting in surgical procedures, pre-operative, and post-operative care, and contributing to successful patient outcomes.

Clinical Electives in General Surgery, Shifa International Hospital

05/2019 – 08/2019

- Participated in a patient communication workshop, enhancing doctor-patient interactions and communication skills.
- Assisted attending surgeons in a variety of surgical procedures, ensuring sterile technique and patient safety.
- Participated in preoperative patient assessments, including reviewing medical histories, conducting physical examinations, and ordering necessary diagnostic tests.
- Managed inpatient surgical cases, coordinating care, conducting daily rounds, and adjusting treatment plans as needed.
- Ensured accurate and comprehensive electronic health record documentation, aiding in patient care continuity and quality assurance.
