✉: ahmedalisoomro@gmail.com

PROFESSIONAL SUMMARY:

Experienced Public Health leader adept in program coordination, Monitoring, and Evaluation. Specializes in WASH, Nutrition, and disaster risk reduction. Skilled in data analysis, reporting, and project management, ensuring positive outcomes for vulnerable groups. Effective communicator and collaborator, fostering community engagement and leading teams to success.

EXPERIENCE:

25th Sep 203 Working

DISTRICT Coordinator Jamshoro (Maternal, newborn Health and Nutrition Programme) Nutrition International (NI)

Establish and improve coordination channels among district stakeholders, including government departments, NGOs, and UN agencies, to enhance program implementation in Jamshoro.

Ensure timely execution of the Annual Work Plan, integrating Monitoring and Evaluation (M&E) activities, and actively participate in crucial government planning meetings to advance our organizational objectives.

Refine district training schedules, oversee their efficient implementation, and facilitate the capacity building of government officials through on-the-job training initiatives.

Supervise the timely procurement and distribution of essential supplies, maintaining an efficient supply chain for IFA tablets, training materials, and communication resources.

Conduct ongoing monitoring of the MNHN program, prepare regular reports, and address operational challenges through field assessments while collaborating closely with relevant partners and the Health Department.

1st November 2021 July 2023

DISTRICT Nutrition Coordinator Tando Allahyar (Accelerated Action Plan "AAP"), PPHI SINDH

11th July 2019 – 30th October 2021

DISTRICT MONITORING OFFICER (Programme for Improved Nutrition in Sindh) PPHI SINDH

Achieved improved health outcomes for targeted populations through leading strategic initiatives in nutrition interventions, focusing on Adolescent nutrition, CMAM, MIYCN, and micronutrient powder supplementation.

Successfully aligned interventions with project goals in collaboration with DCCN, resulting in measurable impacts and effective implementation.

Enhanced CMAM program quality through technical guidance, empowering volunteers and frontline workers, leading to timely interventions and enhanced beneficiary nutrition. Provided continuous support to ensure seamless program implementation, maximizing impact, and reach.

Effectively drove advocacy efforts for nutrition inclusion, maintaining high standards in monitoring, data collection, and reporting, contributing to evidence-based decision-making and sustainable outcomes.

JUNE 2015 – AUGUST 2018

PROJECT OFFICER MONITORING EVALUATION AND RESEARCH (WASH PATS APPROACH), (NRSP)

Developed and implemented tailored monitoring and evaluation frameworks, plans, and tools for the Nutrition Sensitive WASH program.

Designed effective data collection methodologies, including surveys and assessments, to capture relevant information on WASH indicators.

Gathered, analyzed, and synthesized both quantitative and qualitative data to evaluate the progress and impact of WASH interventions within the context of nutrition sensitivity.

Conducted regular field visits of project activities, identified improvement areas, and ensured compliance as per SOPs.

Provided support and training to staff and partners on monitoring, evaluation, and reporting techniques, enhancing their capacity in this area.
