### Experience

Jan 2021 - Present Now

#### Disease Surveillance Officer

World Health Organization, Dera Ismail Khan, Pakistan

2016 - Dec 2020

#### Polio Eradication Officer

World Health Organization, Dera Ismail Khan, Pakistan

#### Job Descriptions (DSO and PEO)

- **Contribute to Annual Planning:** Assist in the development and execution of annual operational plans for assigned districts, aligning with national immunization objectives.
- **Field Coordination:** Coordinate closely with field teams, including Polio Eradication Initiative (PEI) personnel and government counterparts at divisional and district levels, to ensure timely and effective

implementation of immunization strategies.

- **Monitoring & Community Assessment:** Monitor immunization service delivery across fixed, outreach, and mobile sites. Conduct Rapid Convenience Assessments (RCA) within communities to evaluate routine measles vaccination coverage.
- **Micro-Planning Support (RED/REC/Operational Plans):** Facilitate the preparation of high-quality micro-plans for routine immunization at the Union Council level, tailored to local needs and context.
- **Data Quality Enhancement:** Contribute to initiatives aimed at improving the accuracy and completeness of immunization coverage and surveillance data.
- **Surveillance Support:** Assist with Vaccine Preventable Disease (VPD) surveillance activities to evaluate the impact and effectiveness of immunization programs.
- **Stakeholder Engagement:** Collaborate with stakeholders across all levels to coordinate and optimize routine immunization efforts.
- **Logistics & Deployment:** Provide support for field staff deployment and logistical arrangements necessary for efficient immunization operations at the district level.
- **PEI/EPI Operational Integration:** Facilitate synergy between the Expanded Programme on Immunization (EPI) and PEI through joint operational planning and execution.
