Bannu Road, Bannu, Pakistan

Summary

Experienced Public Health Specialist with 10 years of expertise across diverse roles in public health and clinical settings. Currently leading polio eradication initiatives at the District Emergency Operations Centre, where I manage human resource, vaccine logistics, training, and campaign oversight. Previously served as Medical Officer and UPEC Chairman, excelling in campaign planning, HR management, and field supervision. Proven track record in overseeing medical operations as Deputy Medical Superintendent, and delivering pediatric care, including emergency treatment and immunizations. Adept at strategic planning, data analysis, and improving health outcomes through comprehensive public health strategies.

Experience

Jan 2024 - Present

PEI Focal Person/Medical Officer

District Emergency Operations Centre for Polio & Essential Immunization, Bannu, Pakistan

Served as the primary contact for the district health department, spearheading polio eradication initiatives and overseeing all related activities. I was responsible for training focal persons before campaigns and managing the logistics and distribution of vaccines throughout the campaign cycle. My duties included conducting MPQA assessments, supervising pre-campaign and intra-campaign operations, and ensuring accurate data communication and analysis. Additionally, I held teams accountable for their performance, facilitated the timely submission of DDM cards for frontline worker payments, and coordinated campaign progress reviews and meetings to drive continuous improvement.

Mar 2019 - Dec 2023

Medical Officer cum UPEC Chairman for Polio

District Health Bannu, Bannu, Pakistan

Responsible for HR selection and FLWs trainings for the polio campaign. Developed detailed microplans for the campaign and organized UPEC meetings to align strategies. Managed vaccine distribution and logistics, ensuring effective deployment of teams daily. Additionally, I conducted field visits for team supervision and on-the-job training, compiled and reported campaign progress data, and managed the retrieval of vaccines and logistics.

Jul 2017 - Feb 2019

Deputy Medical Superintendent

District Headquarters Hospital (MTI), Bannu, Pakistan

Oversaw the hostelite medical staff and served as the focal person for the model court. I was an active member of the board committee, ensuring staff availability and managing the availability of medical supplies and equipment. My responsibilities included issuing medical fitness certificates for driving licenses, overseeing medical OPD and ward duties, and handling casualty management for a range of conditions including RTA, first aid, burns, myocardial infarction, diabetic ketoacidosis, poisoning, cerebrovascular accidents, gastrointestinal issues, urinary tract infections, and acute respiratory infections. Additionally, I managed medicolegal cases and conducted postmortems.

Jan 2016 - Jun 2017

Medical Officer (Peads)

Women & Children Hospital (MTI) Bannu, Bannu, Pakistan

As a Medical Officer specializing in pediatrics, I provided first-line treatment and managed nursery care for neonates while also delivering emergency medical treatment to children under 10 years old. I conducted routine pediatric consultations, overseeing growth, development, and preventive care. My role included administering and managing immunizations, handling chronic conditions like asthma and diabetes, and offering family education and counseling on child health and nutrition. I coordinated with pediatric specialists for complex cases, and prepared for and managed pediatric emergencies, including severe allergic reactions and acute infections.

Jan 2015 - Dec 2015

House Officer

Khalifa Gul Nawaz Hospital - MTI Bannu, Bannu, Pakistan

As a House Officer, I performed various critical procedures including the insertion of intravenous cannulas, urine catheterization, and the placement of nasogastric tubes. I was also responsible for administering intravenous and intramuscular injections. These tasks were integral to patient care and supported the efficient management of medical treatments.
