### PROFESSIONAL PROFILE

A highly motivated and compassionate medical professional with a Bachelor of Medicine, Bachelor of Surgery (MBBS) from Khyber Medical University and extensive hands-on experience during a 12-month house job at Abbottabad Medical Complex. Eager to contribute to the healthcare field with a commitment to providing top-quality patient care, and continuously enhance my medical skills. Seeking to join a reputable healthcare institution where I can leverage my knowledge and experience to improve patient outcomes and further develop my expertise

### WORK EXPERIENCE

#### House Job

Abbottabad Medical Complex | Abbottabad | August 2023 – July 2024

#### General Medicine:

- Conducted patient assessments and evaluations, including history taking and physical examinations.
- Developed and implemented patient care plans in collaboration with senior physicians.
- Managed common medical conditions and provided preventive care.
- Monitored patient progress and adjusted treatment plans as needed.
- Assisted in patient education and provided counseling on disease management.

#### PEADS:

1. Assessing and diagnosing pediatric patients' medical conditions
2. Developing and implementing treatment plans
3. Conducting routine check-ups and vaccinations

#### General Surgery

- Assisted in preoperative and postoperative care of surgical patients.
- Participated in surgical procedures, including preparation and intraoperative support.
- Managed wound care and monitored for complications.
- Provided patient education on surgical procedures and recovery

#### Neurosurgery:

- Diagnosing and treating neurological disorders and injuries
- Performing surgical procedures, such as craniotomies, spinal fusions, and aneurysm clippings
- Conducting patient examinations, imaging studies, and lab tests
- Developing and implementing treatment plans, including surgical and non-surgical options
