- Coordinate and collaborate with teachers and principal

Work Experience

Data Analyst

 **MicroMerger (Pvt.) Ltd.**

August 2023 to December 2023

- I gathered data from NEOC and COMNet, conducted data cleaning and merging, and performed detailed analyses for weekly reports.
- Working on micro-mapping project with a research team. I've also created small projects using Power BI for improved data visualization and reporting. I worked as a highly skilled Data Analyst with a penchant for exploring and manipulating data to uncover meaningful insights.
- Experienced a dynamic role within Micromerger, a trusted partner of UNICEF. Proficient in the art of "playing with data," employing advanced analytical techniques to extract valuable patterns and trends.
- Well-versed in leveraging tools such as Excel, ArcGIS, SQL and data visualization platforms to transform raw data into actionable intelligence. Adept at collaborating with cross-functional teams to understand data needs and deliver impactful solutions. Passionate about contributing to global health initiatives by harnessing the power of data.
- Eager to bring a unique blend of technical expertise and creativity to further enhance Micromerger's role in supporting UNICEF's mission.

Research Analyst

 **MicroMerger (Pvt.) Ltd.**

January 2024 to Present

- Dynamic and results-driven Research Analyst with a proven track record in collecting, analyzing, and interpreting health data to inform decision-making processes.
- Experiencing work in a third-party company MicroMerger dedicated to supporting UNICEF initiatives. Proficient in employing advanced statistical methods. Adept at collaborating with diverse stakeholders to ensure accurate and comprehensive data collection.
- Demonstrated ability to generate actionable insights through compelling reports and data visualizations. Skilled in developing and implementing monitoring and evaluation frameworks to track program progress.
- Committed to upholding data privacy and ethical standards. Seeking to contribute expertise to impactful health programs, leveraging a solid foundation in research analytics and a passion for improving global health outcomes.
