SUMMARY

Experienced professional with a versatile background in Site inspector, construction supervision, and engineering. As a Project Associate, I contributed to successful project execution through effective planning and coordination. During my S Internship, I honed on-site management skills and ensured safety and quality standards. As a Site Engineer Intern, I gained hands-on experience in construction methodologies and project documentation. My diverse experience and skills make me a valuable asset for any project team, committed to delivering results efficiently and effectively.

WORK HISTORY

2022-05 -

Project Associate

2023-05

Khyber Pakhtunkhwa wildlife department, Peshawar

- Produced quality standards, checklists, report templates, and processes.
- Maintained tactical control of project budgets and timelines to keep teams on task and achieve schedule targets.
- Partnered with project team members to identify and quickly address problems.
- Planned, executed, and controlled assigned projects, ensuring work performed complied with contractual requirements.
- Preparing Tender Proposals and Managing Billing of Quantities

2021-11 -

Internship

2022-04

Creative Engineering Consultants, Peshawar

- Worked closely with experienced site supervisors to assist in the management and execution of highway construction projects.
- Conducted regular site visits to monitor construction progress, ensuring adherence to project plans, specifications, and safety regulations.
- Assisted in maintaining accurate project records, including daily progress reports, incident reports, and documentation related to materials, equipment, and workforce.
- Collaborated with quality control teams to inspect and verify the quality of construction work, materials, and installations, reporting any non-conformities for corrective action.
- Actively sought feedback from experienced site supervisors and team members to improve knowledge and skills in highway construction management.

2022-01 –

Internship

2022-03

National Highway Authority of Pakistan

- Led and supervised building construction projects from inception to completion, ensuring adherence to blueprints, specifications, budgets, and timelines.

- Implemented and maintained rigorous quality control measures to guarantee workmanship, materials, and installations met or exceeded project requirements and industry standards.
- Enforced strict safety protocols and regulations, fostering a culture of safety among onsite personnel to prevent accidents and incidents.
- Efficiently managed labor, materials, and equipment resources, optimizing utilization for maximum productivity while minimizing waste.
- Closely monitored construction progress, identified potential delays, and took proactive steps to keep projects on schedule, providing regular updates to project stakeholders.
