Work Experience

Naseer Teaching Hospital Peshawar

July 2023- July 2024

Work as House officer at NTH Peshawar

Six Months as House officer in General Surgery And Allied

General Surgery (3Months)

Outpatient Department:

Managed various surgical cases, conducted patient consultations, and assisted in developing treatment plans under the supervision of senior surgeons.

Intensive Care Unit:

Provided comprehensive care for postoperative and critically ill surgical patients, including monitoring vital signs, administering medications, and collaborating with multidisciplinary teams.

Operating Theater:

Participated in preoperative preparations, ensuring patient readiness and safety. Scrubbed in and assisted during major and minor surgical procedures, adhering to sterile techniques and surgical protocols.

Ward:

Assisted in the postoperative care of surgical patients, including wound management, pain management, and monitoring recovery progress. Collaborated with nursing staff and physicians to ensure optimal patient outcomes.

Otolaryngology / ENT (3 Months)

Outpatient Department:

Attended and managed routine ENT cases, performed minor procedures including ear toilet, wax removal, and foreign body removal from the nose, under the supervision of ENT specialists.

Operating Theater:

Assisted in various ENT surgeries, ensuring patient safety and surgical protocol adherence. Participated in preoperative preparations and provided postoperative care as required.

 **Work Experience**

Work as House officer in General Medicine and Allied*General Medicine (3 Months)*

Outpatient Department (1 month):

Attended and managed various routine cases under the supervision of senior doctors. Responsibilities included patient consultations, diagnosing conditions, and developing treatment plans.

Ward (1 month):

Performed routine investigations and developed management plans for patients, all under the guidance of senior medical staff. Ensured accurate documentation and effective patient care.

Casualty (1 month):

Managed a variety of routine and emergency cases under the supervision of senior doctors, including trauma, acute medical conditions, and other urgent situations. Provided immediate care and stabilization for patients in emergency settings.

Psychiatry (3 Months)

Outpatient Department:

Conducted patient consultations, took comprehensive psychiatric histories, and performed mental status examinations under the supervision of senior psychiatrists.

Assisted in diagnosing and developing treatment plans for a range of psychiatric disorders, including anxiety, depression, bipolar disorder, and schizophrenia.

Counseled patients and their families on treatment options, medication adherence, and lifestyle modifications.

Participated in multidisciplinary team meetings to discuss patient progress and coordinate care.

Managed follow-up appointments, monitoring patient progress and adjusting treatment plans as necessary.
