Summary

Being registered with Pakistan Medical and Dental Council as Medical Practitioner, I graduated from Ayub Medical College (Khyber Medical University) Abbottabad. I have completed my house job from Ayub Teaching Hospital Abbottabad, in Surgery, Accident and Emergency, ICU and Medicine departments.

I have 3 years and 6 month postgraduate experience at Rehman Medical center KSK Swabi. I am committed to actively participating in clinical rotations, where I diagnose and manage a wide spectrum of medical conditions, both in inpatient and outpatient settings. Responsibilities also include engaging in emergency medicine, critical care, and various medical procedures relevant to General practitioner. Alongside patient care, I also contribute to the academic community through research projects and scholarly activities.

Career Objective

My primary career objective is to attain a comprehensive understanding and mastery of surgery & medicine. I aspire to develop clinical excellence in diagnosing and managing a diverse range of medical conditions, fostering a patient-centered approach that prioritizes empathy and effective communication. Ultimately, my goal is to become a well-rounded physician, combining clinical expertise, academic contributions, and a commitment to continuous improvement in healthcare delivery.
