SUMMARY

Data Science graduate with good experience in Data Analysis, ML, Prompt Engineering. I have good experience with Python, Data Visualisation with proficiency in Python. Effective communication skills and proven ability to work collaboratively in interdisciplinary teams and adapt quickly to new environments and challenges. Working as an AI Engineer/Prompt Engineer working on different Prompts to make my understanding of the machines more effective.

EDUCATION

BS Data Science, Institute Of Management Sciences, Peshawar University 2019 - 2023
Relevant Coursework: Programming, Databases, Artificial Intelligence, Machine Learning, EDA, Statistics and Probability for Data Science, Data Structure and Algorithms.

EXPERIENCE

Working on Data Visualisation in Python and prompt engineering, developing understanding and working of LLM. 2023-2024

PROJECTS

Face Mask Detection System. Build a face mask detection system to prevent fraudulent activities in ATM. Some of the tools used in the project are Opencv, Python, Wemos D1 R1.

A Car Spec Program named (*Caraholic*). Created a program in Python with our own database that would have the data of different cars with their prices, models including their make and their variants. The Program would filter out the cars according to your price budget.

SKILLS

Communication Skills	Verbal, Written communication and presentation skills, worked as BDE.
Programming Languages	Python, R
AI Engineering	Prompt Engineering
Data Analysis	Python libraries (Pandas , Matplotlib, numpy), working on PowerBI
Machine Learning	Supervised and Unsupervised
Databases	Knowledge of SQL
IOT and Data Science	Micro-controller Boards, sensor integration for data science applications
MS Office	MS Excel, PowerPoint, Word

CERTIFICATIONS

- **CCNAv7: Introduction to Networks**
- **Enterprise Networking, Security, and Automation**
- **CCNAv7: Switching, Routing, and Wireless Essentials**
- **CyberOps Associate**
- **Programming For Everybody (Getting Started With Python) by University Of Michigan**
- **Big Data 101 (Provided by IBM)**
- **ChatGPT Prompt Engineering for Developers**

LANGUAGES

- English - Fluent
- Urdu - Native/Bilingual
