

# Israr Hussain

I am seeking a challenging role as a Medical Officer where I can apply my medical knowledge and clinical skills to improve patient care. I am committed to continuous learning and delivering high-quality healthcare in dynamic environments.

## SKILLSET

### Patient Care and Management:

*Strong ability to manage patient care, including medical histories, physical examinations, and follow-up care.*

### Medical Documentation:

*Experience with accurate and timely medical record-keeping and reporting.*

### Emergency Care:

*Skilled in providing immediate care in emergency situations, including trauma management and resuscitation.*

### Communication and Counseling:

*Effective communication skills for patient education, counseling, and interaction with multidisciplinary teams.*

### Pharmacological Knowledge:

*Solid understanding of medications, dosage, and interactions in treatment plans.*

### Surgical Assistance:

*Familiar with assisting in surgical procedures and post-operative patient care.*

## EDUCATION

### SHEIKH ZAYED MEDICAL COLLEGE RYK, MBBS (UHS).

2018 - 2023

## HOUSE JOB

### Shaikh Zayed Hospital, Rahim Yar Khan

June-2023 to June-2024

#### Department of General Medicine (3 months)

- Conducted thorough patient assessments, including history-taking and physical examinations.
- Managed chronic and acute medical conditions such as diabetes, hypertension, and respiratory illnesses.
- Participated in ward rounds, outpatient clinics, and emergency care for a broad range of medical cases.
- Assisted in diagnostic and therapeutic procedures, including lumbar punctures and pleural taps.

#### Pediatrics (PAEDS) Medicine (3 months)

- Provided care for pediatric patients, including newborns and children with infectious diseases, nutritional disorders, and respiratory conditions.
- Assisted in administering vaccinations, monitoring growth and development, and managing acute pediatric emergencies.
- Counseled parents and caregivers on preventive healthcare, nutrition, and childhood diseases.

#### Orthopedic Surgery (3 months)

- Assisted in orthopedic surgeries, including fracture management, joint replacements, and trauma cases.
- Managed pre- and post-operative care, including wound care, pain management, and rehabilitation planning.
- Conducted initial assessments of musculoskeletal injuries and trauma in the emergency department.

#### General Surgery (3 months)

- Assisted in a variety of general surgical procedures such as appendectomies, hernia repairs, and laparotomies.
- Monitored pre- and post-operative patients, ensuring optimal recovery and management of surgical complications.
- Performed minor surgical tasks under supervision, including suturing, dressing changes, and wound management.
