OBJECTIVE

Dedicated, punctual, and personable professional with a passion for leveraging data analysis, programming, and statistical modeling to develop and implement cutting-edge machine learning algorithms. I bring a strong work ethic, thrive in collaborative team settings, and possess excellent communication and listening skills.

FINAL YEAR PROJECT

Medical health care and recommendation using machine learning techniques

As part of my final year studies, I led a project focusing on transforming healthcare through machine learning. I developed a system for analyzing extensive medical data, extracting key insights for informed decision-making. Using machine learning algorithms, I created personalized health recommendations based on individual medical histories, enhancing patient care. Collaborating with healthcare and data experts, I integrated medical expertise with advanced technology. Emphasizing ethical considerations, I implemented robust measures to protect sensitive healthcare data. This project showcases my technical proficiency in machine learning and highlights my commitment to impactful advancements in healthcare.

SKILLS

HARD		SOFT	
Python	●●●●●○	Creativity	●●●●●○
Machine Learning	●●●●○○	Project Management	●●●●●○
Data Analysis	●●●○○○	Communication	●●●●○○
Data Visualization	●●●●○○	Team Player	●●●●●○
Html	●●●○○○	Work Ethic	●●●●●○
CSS	●●●○○○	Leadership	●●●●○○

EDUCATION

2019 - 2023
BS Computer Science
Gomal University

2017 – 2019
FSc Computer Science
Govt Degree College Paharpur
