EXPERIENCE

Liaquat National Hospital Karachi

6th February, 2023

Internship At Paeds Medicine LNH

- 6th March, 2023

Soon after my final year Exams, whilst waiting for the result, I applied for internships/Observerships at different hospitals in Pakistan, to make the most of my time. Got selected in LNH Karachi, worked under the supervision of renowned Paeds specialists like Dr Samina, Dr Nazish M.D, Professor Dr. Shabbir Consultant metabolic disorders paeds and Dr Atika Nephrologist paeds.

Though brief but spent a quality time, observing and working with the team in OPDs and wards. Got acquainted with the students, interns and residents. Made friends. Got some career counselling.

In short this experience boosted my confidence further and helped me have a glimpse of hope and unlimited opportunities that the world has to offer.
