Mehmood Hassan

Statistical Assistant

About me

I am a determined individual who has triumphed over adversity to pursue a path of academic excellence. My journey led me to excel in statistics, with practical experience at the Pakistan Bureau of Statistics and a role as an enumerator in the latest digital Census of Pakistan. My foray into Machine Learning during the Census project ignited my passion for data science. I am eager to contribute my skills, driven by the belief in data's power to shape informed decisions for the betterment of society, and I am committed to furthering my education through an international opportunity.

Work Experience

Mar,2023 - May,2023
Enumerator in Digital Census of Pakistan for Hangu, Khyber pakhunkhawa

Harnessed machine learning techniques to uncover valuable insights, make predications, and automates various tasks using census data. This experience further fueled my passion for data science.

Oct,2022 - Nov,2022
Intern at Pakistan Bureau Statistics

Explore sample design and learned how to draw sample for Surveys, PSLM and labor force survey. Gained insight into how these surveys positively impact the development of Pakistan.

Jul,2022 - Sep,2022
Data Entry Clerk at National Defence University

Performed data entry, Data cleaning, documentation, security of data and making schedule. Gained experience in handling confidential data.
