ABOUT ME

I am a dedicated medical professional with a Bachelor of Medicine and Bachelor of Surgery (MBBS) from Khyber Medical University, Peshawar, graduating in 2022. I successfully completed my house job from July 2022 to June 2023, gaining comprehensive experience across multiple specialties, including surgery, medicine, pediatrics, and emergency care.

Following my house job, I served as an EPI Social Worker from July 2023 to June 2024, where I worked closely with community health programs focusing on immunization campaigns and raising awareness of preventable diseases. My role involved mobilizing communities and promoting vaccination efforts, aligning with public health goals.

Currently, I hold two key positions. As a Medical Officer at Shahid Medical Centre, Peshawar, I provide healthcare services in a busy private practice from 4 pm to 8 pm, ensuring quality patient care on a daily basis. Simultaneously, I serve as a Lecturer at Ghazali Institute of Allied Health Sciences, where I began in August 2024. Here, I educate medical students, contributing to the next generation of healthcare professionals. My passion for medicine, practical experience, and ongoing dedication to patient well-being drive me to contribute positively to the healthcare field. I am eager to further expand my knowledge and skills, making a meaningful impact on the health and lives of those I serve.

EDUCATION AND TRAINING

16/12/2016 - 17/06/2022 Pakistan, Pakistan

Bachelor of Medicine & Bachelor of Surgery Gajju Khan Medical College Swabi

WORK EXPERIENCE

01/07/2022 - 30/06/2023 Swabi, Pakistan

House Officer Bacha Khan Medical Complex Swabi, Swabi, Pakistan

As a House Officer at Bacha Khan Medical Complex Swabi, my responsibilities included managing patient care across various departments, performing clinical duties, and supporting senior physicians. My key activities involved:

- Conducting daily patient rounds, updating medical records, and following up on treatment plans.
- Providing wound care, managing minor procedures, and assisting in surgeries.
- Handling emergency cases, stabilizing patients, and coordinating with consultants.
- Managing pediatric patients in the Neonatal Intensive Care Unit (NICU).
- Collaborating with multidisciplinary teams to ensure patient safety and effective care.
- Assisting in patient discharge planning, including preparing case summaries and reports.

30/07/2023 - 30/06/2024 Malakand, Pakistan

EPI Social Worker Civil Hospital Malakand

As an EPI Social Worker at Civil Hospital Malakand (July 2023 - June 2024), I played a key role in promoting immunization programs and raising awareness about the importance of vaccines. My responsibilities included:

- Educating the community on vaccine-preventable diseases and encouraging participation in immunization campaigns.
- Coordinating with healthcare teams to ensure effective vaccine delivery in remote areas.
- Assisting in organizing vaccination drives and maintaining accurate records of immunized individuals.
- Addressing concerns and misconceptions about vaccines through community outreach and dialogue.

- Supporting public health initiatives to enhance vaccination coverage in underserved regions.
- This role enhanced my communication, community engagement, and public health advocacy skills.

01/07/2024 – CURRENT Peshawar, Pakistan

Medical Officer Shahid Medical Centre

As a Medical Officer at Shahid Medical Centre, Phase 6, Hayatabad, Peshawar, I am responsible for delivering primary healthcare services, diagnosing and managing a variety of medical conditions, and providing patient-centered care. My key responsibilities included:

- Conducting patient consultations, diagnosing illnesses, and formulating treatment plans.
- Managing acute and chronic medical conditions, ensuring appropriate follow-up care.
- Performing minor procedures and providing first-line emergency care.
- Coordinating with specialists for referrals and collaborating with healthcare teams for comprehensive patient management.
- Educating patients on preventive healthcare practices and promoting healthy lifestyle choices.
- This role significantly enhanced my clinical decision-making, patient management, and diagnostic skills in a fast-paced medical setting.

01/08/2024 – CURRENT Peshawar, Pakistan

Lecturer Ghazali Institute of Allied Health Sciences

As a Lecturer at Ghazali Institute of Allied Health Sciences, Peshawar, I am responsible for teaching and mentoring students in various health science disciplines. My primary duties included:

- Delivering lectures on core medical subjects, focusing on both theoretical knowledge and practical applications.
- Preparing lesson plans, course materials, and assessments to ensure comprehensive learning.
- Supervising practical sessions and clinical demonstrations to enhance students' hands-on skills.
- Guiding students through research projects and encouraging evidence-based practices.
- Providing academic support and mentorship to foster student development and success.
- This experience honed my teaching, communication, and leadership skills in an academic environment.

PROJECTS

Hospital Quality Improvement

I collaborated with hospitals to work on projects related to improving patient care, safety, or hospital management.

Public Health Campaigns

I collaborated with local healthcare organizations to work on public health campaigns addressing issues like vaccination awareness, hygiene, or disease prevention.

Telemedicine Initiatives

I developed or contributed to telemedicine platforms to provide healthcare access to remote areas in Pakistan, especially in Swabi.

Community Health Camps

I organized and participated in health camps in underserved areas to provide medical services, health education, and screenings for common diseases.
