Address: D18, Islamabad, Pakistan

PROFILE SUMMARY

- I am a dedicated **Emergency Medicine Physician** with a strong foundation in both medical and surgical emergencies. After earning my **MBBS** from Ayub Medical College, I furthered my expertise through the **MRCEM Primary** from the Royal College of Emergency Medicine and the **Emergency Medicine Foundation Program** from London College of Emergency Medicine. My clinical experience spans rotations in general medicine, surgery, and emergency medicine, equipping me with the skills to handle high-pressure situations and provide comprehensive patient care.
- I have accumulated over **250 CPD points**, completing advanced courses in areas such as trauma management, emergency radiology, critical care & much more. I also attended a **100 Emergency Procedures Workshop** led by a senior NHS consultant, further refining my skills in life-saving procedures and complex emergency management. My training, which includes hands-on experience has been reinforced by endorsements from **NHS consultants**, reflecting my commitment to delivering high-quality, evidence-based care.
- With a proactive approach to continuous learning and professional development, I am confident in managing a wide range of medical and surgical emergencies. I thrive in fast-paced environments, and I am passionate about using my skills to make a positive impact on patient outcomes. I look forward to contributing my expertise and dedication to any healthcare team I join.

RECOMMENDATIONS

“Dr Muhammad was thoroughly assessed by a team of NHS UK consultants on various occasions and was evident that he is very keen to learn and progress in his career. It is evident from his learning curve that Dr Muhammad Ibrahim will be an asset to any organisation he joins.”
