House no. 108, Street 2 Private Professor Colony near Agriculture University
Peshawar

Objective

I am a dedicated professional with proven strengths in customer service, time management and trend tracking, skilled in troubleshooting issues. I am an excellent verbal and written communicator with a solid track record of fostering positive relationships and surpassing objectives. My leadership abilities are complemented by experience in managing various tasks such as disease prevention, surveillance, case diagnosis of AFP and program control

Experience

Shangla Medical Complex

Jan 2019 - Feb 2022

Medical Officer: AFP surveillance and Public Health

I am dedicated Medical Officer with expertise in Acute Flaccid paralysis surveillance for public health programs.

I possess a strong clinical background combined with public health knowledge, making me proficient in identifying and investigating potential polio cases.

- AFP Case Identification: skilled in recognizing clinical signs and symptoms of AFP
- Experienced in conducting thorough case investigation for AFP, including collecting relevant data and collaborating with public health teams.

A TO Z MATERNITY HOME

Feb 2022 - Jun 2024

Medical Officer: Maternity center

- To Diagnose and treat various medical conditions
- To point out different cases of AFP to Public Health department Diagnose and
- manage pediatric patients

Bannu Medical College

Mar 2022 - Present
