CHiP Training and Consulting
Balochistan

Dear CHiP Training and Consulting,

I am excited to apply for the Immunization Officer/Disease Surveillance Officer with passion for preventing disease and promoting community well-being, I am confident in my ability to make a meaningful impact.

I have worked as a House Officer in BMCH Quetta for one year in different departments to be able to understand every disease with every detail so that I could heal my patients with this beautiful power of knowledge and experience.

I am particularly drawn to organization because of its commitment to build a healthy community. My skills and experience align with the organization's goals, and I am eager to contribute.

Thank you for considering my application.

Sincerely,
Sheeza Shabbir.
