Pakistan 📍

As an experienced data analyst with over one year of hands-on experience, I possess a wide range of skills in SQL, Excel, Power BI, and Python. My expertise lies in the ability to collect, analyze, and interpret complex data sets and present them in an easy-to-understand format. My proficiency in SQL allows me to extract data from databases, manipulate it, and create reports. I am also well-versed in Excel, where I can use various features to clean, organize, and analyze large data sets. Additionally, I have experience in creating dashboards and reports using Power BI, which allows me to provide valuable insights to stakeholders. I am also proficient in Python and have utilized it to automate tasks, conduct statistical analyses, and create data visualizations.

## WORK EXPERIENCE

### Communication Data Support Officer

Polio Eradication Initiative (SHMA), Karachi West

06/2023 - Present,

- *Achievements/Tasks*
- Performing ETL and EDA over multiple Dataset of Polio communication data.
