Samungli Housing Scheme, Samungli Road, Quetta

With my enthusiasm for healthcare and in the medical field, I believe I am an ideal candidate for the role. I recently received my medical degree from National University of Medical Sciences (NUMS), where I was trained in the fundamentals of patient care, including diagnostics, treatments, and medical record keeping. During my education, I developed a strong understanding of medical practices, as well as the importance of excellent patient care.

Since graduating, I have gained experience in the medical field by working as a house officer at JPMC Karachi and CMH Quetta. In this role, I shadowed experienced medical professionals, assisted and managed a number of medical cases learning and gaining an understanding of different medical procedures along the way.

I am confident that my enthusiasm for helping others and my knowledge of medical practices will make me an asset to your organisation. I am eager to continue learning and developing my skills in the medical field, and I am certain I can contribute to your team. I am eager to discuss my qualifications and experience in further detail.
