### PROFILE

I am a professional Medical Doctor registered with Pakistan Medical & Dental Council (PMDC), enthusiastic to provide comprehensive medical care to individual patients and contribute to medical teaching and public health through my knowledge, hard work and dedication. I am skilled in history taking, patient examination, patient counselling, diagnosing, and treating acute & chronic medical conditions. I am looking for an environment where I can expand my knowledge and skills for my future career development. Also, I am focused on improving my clinical approach and interpersonal skills as well as providing service to the society.
