CERTIFICATIONS

- Microsoft Power BI Data Analyst
- Excel Basics for Data Analysis-IBM
- Data Analysis with Python-IBM
- IBM Data Analyst Professional Certificate
- Prepare Data for Exploration by Google
- Complete Data Analyst Bootcamp - Udemy
- Supervised Machine Learning: Regression and Classification - Stanford Online
- Python for Machine Learning & Data Science Masterclass - Udemy
- Python Basics for Data Science - IBM

ABOUT ME

As a results-driven and detail-oriented Data Analyst having skills proficient in extracting, analyzing, and interpreting complex data sets to provide business-driven solutions. I am well-versed in utilizing statistical methods and data visualization tools to give valuable information and recommendations. I can translate data into understandable and actionable information for business in decision-making. Proven expertise in data analysis tools and languages such as Python, SQL, Excel, and Power BI. Strong commitment to continuous learning and updating with industry trends.

EXPERIENCE

BI Analyst at OakStreet Technologies Pvt Ltd **September 2024 – present**

- Collected and integrated data from multiple sources to ensure accurate, consistent reporting.
- Cleaned and transformed raw data for structured analysis and reporting.
- Designed and maintained interactive dashboards and reports in Power BI/Tableau for stakeholder insights.
- Analyzed large datasets to identify trends, patterns, and actionable insights.
- Collaborated with business units to understand reporting needs and provide data-driven solutions.
- Generated ad-hoc reports and responded to complex data queries to support decision-making.
- Developed and optimized data models for efficient data retrieval and reporting.
- Monitored key performance metrics to track business performance in real-time.
- Improved data collection processes and reporting workflows for increased efficiency.
- Trained business users on BI tools, enabling self-service reporting and data interpretation.

PROJECTS

- Data Analytics and Visualization Job Simulation with Accenture North America
- Power BI Job Simulation On Forage PwC Switzerland
- Sales Data Analysis by using Power Query, Power Pivot & DAX (Excel)
- Property Value Analysis - Real Estate (Power BI)

TECHNICAL SKILL

MS Office i.e. Excel, Word, PowerPoint
MS Power BI
Google Suite
SQL (MY SQL, Postgre SQL, MS SQL)
Python (Jupyter Notebook, VS Code)
Google Looker Studio
Data Analysis
Exploratory data analysis
Data Visualization
Feature Engineering
Data Wrangling
Analytical and Research Skills
Problem-Solving
Teamwork
Leadership
Time Management

EDUCATION

MSc - Applied Mathematics
Quaid-e-Azam University Islamabad
September 2011 - Jul 2013

Courses: Calculus, Linear Algebra,
Numerical Analysis, Statistics

LANGUAGES

- English
- Urdu
- Shina

Data Analyst, Freelancer

June 2022 – August 2024

- Developed and maintained dynamic Power BI dashboards, delivering actionable insights to stakeholders.
- Gathered, cleaned, and transformed data from multiple sources to ensure accurate and reliable analysis.
- Optimized complex DAX queries and implemented data modeling best practices for high-performance reporting.
