● ABOUT ME

Motivated and results-driven petroleum and gas engineer with a solid foundation in Economics and proficiency in a diverse range of computer software applications including AutoCAD, ECLIPSE AND CMG . With a keen understanding of the technical aspects of the oil and gas industry and a strong grasp of business principles, I bring a holistic approach to problem-solving and decision-making. My ability to analyze complex engineering data while considering the financial implications, harness data-driven insights, coupled with my proficiency in utilizing advances engineering and design tools allows me to make well-informed and strategic recommendations. I am dedicated to applying my multifaceted skill set to tackle industry challenges and drive sustainable growth. My track record of successfully integrating statistical analysis, mathematical modeling, and cutting-edge software solutions into engineering projects underscores my commitment to advancing the field of petroleum and gas engineering.

● WORK EXPERIENCE

05/2023 – 09/2023

INTERNEE BPPRA PROCUREMENT

During my tenure at the BPPRA Works Wing, My role involved comprehensive involvement in various aspects of project planning, execution, and monitoring, with a focus on ensuring adherence to the organization standards and best practices.

Key Responsibilities:

1. Project Planning and Coordination.

2. Regulatory Compliance.

3. Data Analysis and Reporting.

4. Utilization of Computer Software and AutoCAD.

5. Assessments of procurement plan.

6. Assessments and Checking of daily NIT's , bidding documents and bill of quantities.

7. writing of Non compliance letters and handling of vendors and contractors.

08/2021 – 09/2021

TRAINEE ENGINEER TANDO ALAM & DARO OGDCL

During my internship in Tando Alam oil field and complex and Daru gas and condensate field, I had the opportunity to actively participate in diverse and impactful projects with in the petroleum and gas industry.

key Responsibilities:

1 Checking and maintaining of well pressure.

2 Checking and replacement of safety valves and equipment's.

3 Closing and retrieving of jet pumps cleaning throat and nozzle noticing scaling and precipitate forming value and re installing the pump.

4 Checking compressor pressure and machine.

5 Examine different laboratory test and checking dip and quantity of condensate in tanks.

6 Cleaning and operating of dehydration unit.

7 Sketching of all pipe from well to the last unit of process.

8 Safety and compliance.

09/2017 – 07/2020

VOLUNTEER AT STUDENT AFFAIRS,EVENT MANAGEMENT BUITEMS

- Took and followed detailed directions from others.
- Greeted incoming office visitors, answered questions, and directed individuals to office locations.
- Helped with administrative support by managing incoming calls, coordinating files, and sorting mail.
- Gained operational knowledge and supported departmental needs.
- Worked in team environment to maintain high levels of productivity.

- Completed research, compiled data, and assisted in timely reporting.
- Helped program leadership with planning and fundraising responsibilities.

● **EDUCATION AND TRAINING**

2017 – 2021

BS PETROLEUM & GAS ENGINEERING Buitems

2016 – 2017

BSC(PHYSICS,MATHEMATICS,STATISTICS) University of Balochistan

2013 – 2015

FSC(PRE-ENGINEERING) Govt Degree College Mastung

2013

MATRICULATION Star Model Public School Mastung

● **LANGUAGE SKILLS**

Mother tongue(s): **DEHWARI**

Other language(s): **URDU | ENGLISH | BIRAVI**

● **DIGITAL SKILLS**

MS WORD | MS OFFICE | AUTO CAD

● **ADDITIONAL INFORMATION**

CONFERENCES AND SEMINARS

Inrtoducyion to Enterpreneurship for Engineers Write here the description...

Enhancing of Well Productivity/Workovers

HOBBIES AND INTERESTS

Hobbies

- Traveling
- Reading
- Music
- Writing

COURSES

Six Month Course in Advanced Auto Cad With Revit

SKILLS

Skills

Engineering Problem Solving

Cad Drafting
