آرٹھوپیدک اینڈ جنرل

Patient No : R01432779 Age / Gender : 38 Years Female
Pat Name : MRS. NAZISH W/O MANSOOR
Ref Physician : Dr.Rmo

C.T Scan # C00025796
Examination Date : 09-APR-2025
Reporting Date : 10-APR-2025

CT BRAIN PLAIN

History :

RTA.

Technique:

Multiple unenhanced axial sections were acquired from base of skull till vertex without intra venous contrast administration. Imaging was performed on multi-slice scanner and reporting was done on workstation.

FINDINGS:

No acute intracranial hemorrhage, gross territorial infarction or tumour mass lesion is present in brain.

No extradural or subdural hematoma or collection is present.

Normal ventricular system.

No midline shift seen.

Normal sella and parasellar structures.

No lesion is present in brainstem and both cerebellar hemispheres.

No lesion is present in orbits. Mild inflammatory changes in bilateral ethmoid and left sphenoid sinuses. Mildly deviated nasal septum with nasal spur towards right side.

No fracture is present in skull vault. Mild acute scalp hematoma in right parietal region having maximum depth of 0.5 cm.

Impression :

- No acute intracranial hemorrhage, gross territorial infarction or tumour mass lesion is present in brain.

- No fracture is present in skull vault. Mild acute scalp hematoma in right parietal region having maximum depth of 0.5 cm.
