Dear Ma'am

As discussed on phone call, CX Specialist Muhammad Saleem Khan, currently working at Shell Khanna FS+Capital FS, burnt out on 30 December 23 because of leakage of gas in his room. He was initially taken to Banazir Hospitap for first Aid. Than, he was referred to Khariyan CMH Burn Unit. Where it is reported that his body is 80% burnt out. He is in a critical condition.

So it is requested to grant him medical leave until he fully recovers.

Regards

Muhammad Saleem

Supervisor North
