Subject: [EXT] Uc Deh Bahader UCPO Shafqat Ullah fake cluster

Respected sir.

It is to bring your kind attention to a serious matter that Ucpo Mr Shafqat Ullah Uc Deh Bahadar, is involved in datafudging, he usually takes clusters from Chws book, I have evidence of some clusters he took from book and that's his fake clusters.

Following are the details of fake cluster which has been taken from book and missed children sheet.

1. NID December, date 13 Dec 2021, campaign day 4rth. Chw saiqa AS Rabia from house no. 118 to 155. Note; Ucpo Mr. Called me to take pictures from Chw saiqa book and missed children sheet and what's app me there is some operational issues which I have to cross verify however later I found out that he took fake cluster from it, please find the attachment for screen shot of our what's app conversion.

2. 25th Jan campaign day 2nd Chw beena from house no. 69 to house no. 86. This cluster is also fake cluster which he took from the book.

It is my humble request from your good self to verify his clusters, he was often involved in fake clustering, so many times he asked me to share the pictures of Chw books and missed children's sheets during the campaign when I was in those areas for monitoring and for refusals coverage. he just said there are some operational issues that need to be verified. I am 100% sure that you will find more fake clusters if the investigation is conducted.

Thanks

Tariq Zaman
