Dear TDO Maaz Malik Sahib,

With all due Respects its to inform you that AS Palwasha Code 2141 is not following my Instructions and Misbehaving with me.

Her phone Number is Often off or not Responding and she is not Sending any data in given timeline, and her data is always incomplete and incorrect.

She has time and again reported that her phone is often inaccessible, she is diverting her calls to inaccessible number or using call block service of Jazz *420# and show that her number is inaccessible ; she says that there is network issue but in the Area She work and she live there Jazz network is working well.

Kindly take strict action against her she is not cooperating and listing me, she is not accepting me as her UCDO.

I Request and Recommend Strict against her.

Thanks & Regards.
