

TPO Ikram Ullah was transferred to ICT from his assigned tehsil in June. Operations and data were being monitored by him. After meeting in July with staff, it was asked by the supervisor that he would monitor operations and Haris Sultan would monitor data. Then an email was sent by supervisors to both TPOs to monitor ICT and CDA separately. After Haris Sultan transferred to ICT then the communication was less between both TPOs.

After an email was sent to all staff about relocating to the assigned area then Haris misbehaved with AC and ~~Team Lead~~ – Islamabad. It was decided in the meeting that Ikram will be shifted to ICT and Haris will be shifted back to CDA. When Team Lead left for Namaz he again misbehaved and after that again misbehaved with IO. At that time AC and other staff (UCPO Fatima, and other UCPOs) were also present there. He alleged AC discrimination based on language and tribe. tam

Haris Sultan previously also misbehaved with the supervisors and staff. At the time of joining Urban UCs were assigned to Ikram and Rural were assigned to Haris. But Haris insisted Ikram that he wanted to take urban UCs. IO at that time cooperated with him.

is always bear & cancelled by IO/supers

On Friday in the meeting, Haris Sultan met with Ikram and told him that he wanted to talk to IO. On Sunday, Haris Sultan asked Ikram to handle IO by himself as he will leave in 15 to 20 days as he is not happy with shuffling. Haris Sultan lived in Bari Imam and shifted to the new house but it is near to his old house.

Supervisor Dr Musharraf behavior is very good with all the staff and the LQAS result has also been improved. TTSP of Ikram Ullah told him about abusive language of Haris sultan about him but Haris never misbehaved with him directly.

I agreed
