

I am writing the statement regarding CHW Rani. In the past she have many issues. i.e she was continuously engaged on mobile during field. she have field related issues like she cannot properly maintained Miss children sheet, Micro census book, and Zero Dose record. Moreover she have other issues like Pick and Drop by other people which are not the family members or she have take money from people and didnot returned. Her number is with ~~the~~ community different people.

She was reported previously when she along with other staff are going to area and a person with a Pistol stop their vehicle and ask her to go with him on bike. Meanwhile ~~the~~ I along with UCCO reached the spot but the person was gone. then he came to centre and a Jirga conducted in which UPEC was also present. The person was of the view that she have take money from him. At the end the person and the CHW apologized and he provided a written statement that he will never follow her. after the incident he was again seen by UCCO and ALSM in field that the same person is giving Pick and Drop. to the CHW.

~~Whenever~~ whenever she was reported on any issue after some time she complained ~~the~~ the concerned person is harassing her and didnot provide any proof. Moreover when she was asked multiple times for provision of proof. she told her supervisor that she have already provided to Madam Aisha and other seniors.

Due to the money scans she have changed her residence multiple time inside UC and currently residing in UC Lala Kaley.

As for of the field activities are concerned she didnot complete her daily tasks completely. she have heart issue and in ~~the~~ campaign she fell down 3 days and her  
Jan

Supervisor Support her. AS are giving support to properly maintain MCB and Miss children sheets.

Besides this ~~she~~ AS report other issues ~~of~~ of money scams, Pick and Drop and other people calling her but whenever she was asked to provide written statement she refused. The UCOO also did not provide any written statement to report further.

Overall she have many issues with community, and field activities. She have different issues on routine basis. She have health issue on routine basis, specifically when there are time bounded activities she cannot complete without support of her AS.

In the Past the CHWs of the concerned area already provided written statement that they will not work with her in the area which was shared with the concerns.

The incident happened in the Past was also reported and her field issues are shared in detail by UCOO Kankola.
