Dear Sir,

This is the 3rd case that UC officers are reporting. before this, the staff had reported two Female staff members for suspicious activity that was noticed during official hours (no action has been taken in previous cases). Now this case is serious as 5 BHU servants/witnesses have not only seen but have recorded formal concerns and complaints against them. The AS Mr. Ameen, code 212 has abused his own CHW Ms. Zainab by calling her to BHU on the compensatory off day. Kindly take strict action, in a very confidential and sensitive way. Along with this, the previous cases are to be tackled too.

The action is crucial so that the male staff who are in the majority should respect females in a UC like Mattani.

The CCTV different footage will be shared if required.

Regards

Amna khan

TDO, Saddar/Mattani
