

My name is Asia Panezai, I am working in a ward-8 under the code of 311. Today I called to CTC office to questioner about my formal AS Shabana. They asked me serval questions. When I told them about my AS that my AS mostly told me to asked my husband to drop her in the BHU as she is late for submitting the data. She also told us to collect some money so that we can grab some food from outside. We ever we sit in her house we did not like their environment. As their way off talking is absurd in front of us.

They asked me about UCOO Nizam, he is really good in his work. One day in the BHU he asks us how is your AS and her behavior with you guys.

Our AS ask me to bring some food for her from my way to kit station and she did not pay me for the food. Like Samosy, Pakore, means all the food things.
