

I am AS Bilqees code 2072 working in a UC ward-8. I was called in CTC about my CHW Rabia. She worked zigzag in her area. When I checked her area, I get to know about that she skips some house. I check 8 to 10 houses where I get to know that Ms. Rabia did not visit their houses. When I called Ms. Rabia, She told me she is working in another street because it is easier for her. And she will do the road side after that. I asked her to complete the work from where she left it, but after some time I received the call from UCOO for the confirmation. I did not complaint about her to formal UCOO Sadaf so that she will improve her work.

The second issue is about AS Hassina's CHW Sadia, she gossips about her. Sadai Sister-in-law told us that she is spreading false news in the community. Therefore, Now the community is also talking about us now. When I and AS Humaira went to CHW Sadia home she and her sister-in-law confirms all the allegation about against CHW Rabia that she did say all of these things. However, Rabia Told me, she asked all of these things from her in sympathy. I told Rabia just focus on her work in the community and cannot meddle in others personal matters. Sadia Sister-in-law told us about Rabia when we went to their house to inquire about the whole situation.

I report Rabia just because she is very irresponsible about her work. Even after be told she is not paying any intension to her work and argue about it.

Rehana is good in her work and has a good behavior too. She just weak in writing but did not give any chance of complaint.

I am also a Shabana's sister Saima supervisor. In the starting, she interferes in my work space but when I complaint about her to formal UCOO Sadaf. She stopped doing this. Other's is her own private affairs. Her dressing has no problem. She wears a Chader.

UCOO Nizam is very cooperative and helps us in work. He scolds us just because of work and after that he also make sure to understand.

AS Bilqees

Code 2072

Ward-8
