

I name is Irum, I am a formal member of AS Shabana team. Today I called CTC office on the case of UCOO Nizam and AS Shabana. Our UCOO Nizam is good with the work. We have no issue with him. Since he came to our UC, our work improved a lot and the work is going pretty well. I have the issue with my formal supervisor that she used to tease us without any reason. She called her Boy Friend to our Kit station. She manipulates the data in our teams MC book. AS lacks the sense of how to dress appropriately, which causes discomfort to the community. She used to go center with our CHW Asia husband on a bike. She misuses my quit nature and burden m with the entire team work load. Once she asks, we to go with one of her acquaintances to hospital and asked other CHW to wait for me until 06:00 o'clock. Kindly keep all these things by yourself as I am working here due to compulsion. She leaked my and my co-worker CHW Rehana number. Therefore, we received calls and massages on regular bases from new number. She used to ask CHW Asia to bring food for her and she also collect money from us to buy a food. She unleashes al the household frustration on the teams. Due to Wrong Numbers, my brother gets angry with me and says why is your number is spreading, because those people text me by my name.
