

I report my AS Shabana due to some issues, therefore, I called CTC today. I want to add some more points to my complaint.

1: She called his boyfriend to our kit station and because of this the watchman told us that doctor is getting angry.

2: If I made some mistake in my work, she reported that to my house directly.

3: She said rubbish stuff in the community about us and she push me once out from of the Refusal house.

4: She taunts me that I saved your sister's job.

5: She asks CM to make the discission.

6: She asked us to come to her home for data, and forced us to give money. Her sister and mother taunt us that Shabana did all of your work but you guys took all the salary by yourselves.

7: whenever I sent her leave, she did not send it for approval but instead of that she reported me.

8: Most of the time she left us on the field and ask us if some one came tell them I just went.

9: We worked with her on a vote day and she distributed our numbers to those boys who worked there with us which cause problems of us in our houses.

10: She told me that the three teams and CM backbite me which is not true.

11: If my sisters AS said anything about her teams or her, she came and taunt me about that your sister's AS complaint about her.

12: My other two cousin also working in the same UC with us whenever they did something or her AS told anything about them, she used to come to me and tell me the whole story. Once I told kindly do not told me all these things this is all between me, my sister and my cousins. From that day onwards she starts teasing me.

13: From last four days she gave my number top other people and because of which I got very fed up. And she said that she is working due to compulsion

whenever she came to my home. Due to her there is no peace in the work. I do not want to face her anymore.

Kindly ask her to do not create problems for me.
