

I am Rehana code 299, today I were called to CTC. I give my testimony against AS Shabana that she is spoiling the environment of ward-8. She always came in the car on the Field with some men, whom she called her cousin. Her way of dressing is inappropriate. I called her multiple times of committee, once, when she attends a call but it was conference call and, on the side, there was some men. Due to which my husband gets angry on me. After that when we lodge a complaint against her, the SHO stated that you do not know this lady. She can escape from everywhere; it is not new for her.

AS Bilquis is always seems anxious. She did all the mistakes in work but never accepted it and put the all balm on her CHWs. Once UCOO Nizam asked her that why your data is late today, she immediately put all the balm on her CHW that she is still did not submit her data even though she have already been submitted it. She never supported any of her team.

UCOO Nizam is not purposely called me and being a personal with me. It is his habit to say "Yar" in every sentence and this is known by the all-UC ward-8.
