

I am CHW Sadia code 293. Today I called in a CTC office on a case of UCOO Nizam and Shabana. And about Ms. Rabia and Ms. Rehana. What can I know about our UCOO? He is little Strick on a work. When ever he came to field he politely communicates with the community and did not cause any difficulty for us. During work he is Strick with us.

I filed the second case against Rabiya and Rehana even though I barely know them, still, they both are misleading people about me. They came all the way to my house and told my sister-in-law, Is Sadia divorcee, also is she run away from house. They told these things firstly to my sister-in-law and after that to teams. They told this to Ms. Saeeda too. Then I told all these thigs to my UCOO and report them.

AS Shabana had a shuffle recently but before that she used to tease her team a lot and create the problems in their books too. Whenever I used to go to the field the community member told me, "If Shabana will come, they did not allow their kid to take polio" and also did not allow me to come in their houses. Yes, this thing is true that MS. Shabana is always with the person in his car and he frequently visits in her area (field) too.

Today on 19 Nov-2024 when I was working in my area, I saw her again on the car in Shabaz Street.
