

I CHW Faryal worked in a UC Qadri Abad. I want to tell something about area supervisor Mehwish. I am working more than three years in this program but when ever we need any leave, she did not give us any leave.

Four days before my wedding I brunt very badly, and because of which I worked in a very tough state. If any of us (CHW teams) said anything, she used to say I will tell TDSO that you have Itching (Kharish) .

When I used to come with my brother-in-law UCOO Hassan and Area supervisor Mehwish used to ask me with whom you came and also doubt my relationship with him.

When we told anything about our Area Supervisor Mehwish to UCOO Hassan he never listens to us and in return he insulted us. For Example, one time I told UCOO Hassan that Sir my home is in distant and I have to pay high fair to the Auto. In Return, he said to me: Then what you want from me I pick you up and drop you, am I servant of your father? And he used to insult me Infront of everyone. Once He told me, I will hit your head with this stick. Sometimes he used to throw books on me. As a human being if we arrived just four minutes late sometimes, so he did not let us go home till 04:00 O'clock. He used to tell CHW Nazia all the work beforehand, and insulted other teams for the work. He Instructed each and every team to make new maps and Book even though CHW Nazia does not made any. Sir did not say a word to her.

Moreover, I used to go home with my husband so, sometimes I also dropped Area Supervisor Mehwish to her home. Once our bike had some issue therefore, I refused area supervisor Mehwish and she bad-mouth me in front of UCOO Hassan. After that UCOO Hassan become personal with me and he also used to do rubbish talk to me. At times, he said you always carry four eyes and evidences with you. In addition, he said you made the footage of area as evidence.

When I Shuffle in this area, it came to my knowledge the pervious CHW was doing the fake finger marking of at least 10-15 Houses. The people used to swear that the last CHW was just doing the finger marking and asked me to do so and when I refused to do it, they threatened to kill me. (UCOO Hassan Knows about it).

UCOO Hassan also joked about area supervisor Ayesha frequently.
