

My name is Hira, and today I was called regarding the case of Sir Hasan. I was asked some questions related to Sir Hasan. According to him, he used to say things that the team and area supervisors did not like. For instance, Sir Hasan told AS Shazia, "Marry my father, and I will never say anything again." He would also get personal with her.

In the past, and even to this day, people say that I like Sir Javed, and he likes me. However, why would I ruin someone's home? There is no relationship between Sir Javed and me. Area Supervisor Asif spread this rumor to everyone, saying that Sir Javed and I do inappropriate things when visiting the area. These people also falsely accuse Sir Javed.

To date, I have never seen Sir Javed act inappropriately with any area supervisor or team member.
