

I am a Parisa Community Health Worker (CHW) with code 1196A, and I work with AS Kainat (code 2299). During the last campaign, AS Kainat gave CHW Ayesha number to her brother. He came on a motorcycle, blew a whistle, and was bothering us. She also fights with me and gave me a show-cause notice when I was just 7 years old. I replied to the show-cause, but she didn't forward it, and I was given a warning.

She misbehaves with me and shared fake data with supervisor which is not provided by me. In this campaign, her brother is bothering us along with all her friends. Her brother also misbehaves with CHW Ayesha, and there is a lot of noise from the CT (call tone).

Please kindly help us in this matter.
