Subject: RE: Respond on unprofessional Attitude

Respected ma'am

This is not satisfactory response from her she is defining the process of reporting in her response and refusing her usage of mobile and sitting next to select shop. I have given her feedback on using mobile phone she said there was call from her home and she has to talk with her daughter because she is alone, and every time I visited she found sitting next to select shop or taking to staff but never seen her working on forecourt.

Thank you
Barkat Ali

Subject: Re: Respond on unprofessional Attitude

Respected All,

Sorry, the information given to you is not correct at all.

I am very serious about my job and I don't consider my job unusual at all because I am the sole earner in my house and I am running my house under very difficult conditions which is not easy for me and I also feel my responsibilities.

My supervisor Barkat Ali is respectable to me once the work is explained to me I do it properly. And as far as sitting all day I don't agree because I only sit during that time when I have to enter bike and rickshaw straddling in the application, because I don't use mobile on the forecourt, that's why I come to the side and after entering, I go to the forecourt again and complete my duty.

And it is also a total accusation that I am involved in other activities of the site. If so, please tell me which other activities of the site I am involved in?

Regards:
