Roll # 027

Applied for (Union Council): Nothia Jaded.

Instructions for Candidates:

Welcome to the assessment centre, the test will approximately take around 1hr having. **The test is to be attempted on the test sheet provided to you by the invigilator.**

Kindly note that this is a confidential document and should be submitted back to the invigilator on completion of assessment.

Kindly conform with the instructions and address any queries you have to the invigilator.

In case you are found cheating / hampering the process of assessment in any way your test assessment will be cancelled and you will become ineligible for any further positins under the program

Section A: Objectives

Q. No. 1- A)- Choose the Correct Answer from the following: 01 Marks for each- (Total Marks-05)

1.1. What side effects can occasionally occur after IPV administration?

- a. Pneumonia
- b. Paralysis
- c. Minor side effects like soreness and fever

1

1.2: Select the main reasons for introducing IPV in the national immunization program

- a. Reduce risks of an outbreak after type 2 OPV vaccine withdrawal (tOPV-bOPV switch)
- b. Help stop outbreaks quickly if type 2 virus is reintroduced
- c. Boost immunity against polio types 1 & 3 to protect populations and hasten eradication
- d. All of the above

1

1.3: What is the preferred route of administration and injection site of IPV?

- a. Oral.
- b. Intramuscular into the thigh.
- c. Intramuscular into the upper arm.
- d. Intradermal into the upper arm.
- e. Subcutaneous into the upper arm.

1

$\frac{5}{5}$

1.4: What information is provided by the immunization card?

- a. Child's date of birth
- b. Vaccines already received
- c. Vaccines needed for the future
- d. Next appointment for vaccination
- e. All of the above

1

1.5: How should multiple vaccines be administered to an infant in one session?

- a. Do not give IPV and other injectable vaccines at the same visit.
- b. Give oral vaccines first, then inject the infant with each injectable vaccine separately.

1

c. Mix all injectable vaccines into the same syringe

B): Mark as true or false (10 marks)

1: Anti polio campaign activities may include:

- Promoting use of antibiotics ✓
- Routine immunization against polio ✓
- Running awareness campaign against polio ✓
- Campaign for improving personal hygiene & sanitation ✓
- Mass vaccination to under six months children only ✓

(9)

2: Most effective way to deal with families refusing polio vaccination to their children could be

- Using police force ✓
- Using community influencer ✓
- Providing information regarding effects of polio vaccine ✓
- Providing incentives in form money to convert ✓
- Threatening to take legal action against the family ✓

(5)

C)- Write correct abbreviations of the following (Marks-05)

- NIDs National immunization Days ✓
- SNIDs Sub National Immunization Days ✓
- LQAS Lot Quality Assurance sampling ✓
- EOC Emergency operation center ✓
- AFP Acute Flaccid Paralysis ✓

Q. No-02)- Why team training is essential & what role UCPO can play in capacity development of the Front-Line Workers? (10 Marks)

Q.NO.3)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -10)

Union Council	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908	10%	15%	15%	60%	10%	45
UC2	1,566	65	30%	7%	43%	20%	54%	3
UC3	1,399	98	9%	61%	30%	0%	75%	3
UC4	1,566	313	25%	25%	28%	22%	5%	3

Q.No.5)- In Pakistan, some of the children with polio cases are missed due to inaccessibility. What would be your advice to the polio team on how to improve access to these children using social mobilization and communication strategies? Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Ans²: Teams Training are conducted before every campaign. It major activities which are conducted in the campaign phase of polio campaign. Training are always conducted based on (TNA) Training Need Assessment. in which we discuss specially gray area of campaign team to improve the quality of campaign. Like Team No 8 make mistake in previous campaign in tally sheet. Area 2 Teams didn't properly record missed children. so in training along with IPC we focused on the teams weak area.

The Role of uelo is to provide Technical Support To Area Supervisor and uemo during Training. before Training Assist Aic, and uemo in preparation of Training Agenda. Ensure The Training must be according To guideline issued by PEOC, and DEOC. uelo close monitoring in fields of The Teams. To highlight The issue of The Teams and share with Aic and uPEC To Address These issue in Training. To maintain good quality Campaign. uelo should be actively involve in Training of FLW. uelo provide during Training Technical support To TEC staff for effective and smooth Training. The role of uelo is to ensure that every member of Teams participate in Training. No single member of Teams remain from Training. uelo also ask during Training about Teams incentive.

de
Supervised
before Trial

I will select UC 4. Because in
this UC compare to other UCs given in table.
awareness of people regarding very low which
is 5%. which is very alarming for UC
ultimately for District. as table show social
mobilization activities is very less in this UC.

on No 2 I will select UC 1 because in
this UC social awareness about Polio is
just 10% which is very low. That's why UC
have huge number of refusal in shape
religious, demand and related campaign.

after UC 01 next one which I will select
as UC 02 for communication is UC 2.

Because here ~~com~~ people awareness is 34%. compare
to UC 4 and UC 1. This UC is ~~the~~ little bit
good but need improvement in communication
activities.

in last I will select UC 3 as UC 03
for communication because here people awareness
percentage is high compare to other 3 UCs.

But This uc Need To ~~Focus~~ Focus on Demand and letted campaign Refusal To improve The uc Refusal coverage.

Ans: Ist i will identify The reason of inaccessible area. in which Reason area are missed. its far flung area. Remote area, hilly area, security compromised area or houses out of reach Due To river.

Being a ucpo my Ist priority will be to engaged This community Through social Mobilization make vision with Tribe elder for accessing these children. with The support of uc Teams we will make micro census of under 5 years children for Polio and 2 years for routine immunization. after That i will initiate campaign in This area Through Tribe elder.

i will arrange for This area (SMTs) Special Mobile Teams which covered Team Transportation etc. i will send such Teams

who are socially accepted To This
area. our Team must be fully equipped
of knowledge. if The ask how you doing
Polio in covid. The must have knowledge
That we use mask and Sanitized in
covid.

5/10

I will maintain a log book of
This area under 5 years child. To
ensure that no single child missed in
This are as. The are vulnerable population
Focus on these are routine immunization.
Through local elder we will make awareness
session. for Polio and routine immunization.

Q. No. 1- A)- Choose the Correct Answer from the following: 01 Marks for each-
(Total Marks-05)

1.1. What side effects can occasionally occur after IPV administration?

- a. Pneumonia
- b. Paralysis
- c. Minor side effects like soreness and fever

5/5

1.2: Select the main reasons for introducing IPV in the national immunization program

- a. Reduce risks of an outbreak after type 2 OPV vaccine withdrawal (tOPV-bOPV switch)
- b. Help stop outbreaks quickly if type 2 virus is reintroduced
- c. Boost immunity against polio types 1 & 3 to protect populations and hasten eradication
- d. All of the above

1.3: What is the preferred route of administration and injection site of IPV?

- a. Oral.
- b. Intramuscular into the thigh.
- c. Intramuscular into the upper arm.
- d. Intradermal into the upper arm.
- e. Subcutaneous into the upper arm.

1.4: What information is provided by the immunization card?

- a. Child's date of birth
- b. Vaccines already received
- c. Vaccines needed for the future
- d. Next appointment for vaccination
- e. All of the above

1.5: How should multiple vaccines be administered to an infant in one session?

- a. Do not give IPV and other injectable vaccines at the same visit.
- b. Give oral vaccines first, then inject the infant with each injectable vaccine separately.

c. Mix all injectable vaccines into the same syringe

B): Mark as true or false (10 marks)

1: Anti polio campaign activities may include: ✓

- a. Promoting use of antibiotics T ✓
- b. Routine immunization against polio T ✓
- c. Running awareness campaign against polio F ✓
- d. Campaign for improving personal hygiene & sanitation F ✓
- e. Mass vaccination to under six months children only — T ✓

1/5

2: Most effective way to deal with families refusing polio vaccination to their children could be

- f. Using police force F ✓
- g. Using community influencer T ✓
- h. Providing information regarding effects of polio vaccine T ✓
- i. Providing incentives in form money to convert F ✓
- j. Threatening to take legal action against the family F ✓

5/5

C)- Write correct abbreviations of the following (Marks-05) ✓

- NIDs National Immunization Days ✓
- SNIDs Sub-National Immunization Day ✓
- LQAS Lot Quality Assurance Sampling ✓
- ECC Emergency Operation Centre ✓
- AFP Acute Flaccid Paralysis ✓

5/5

Q. No-02)- Why team training is essential & what role UCPO can play in capacity development of the Front-Line Workers? (10 Marks)

Q.NO.3)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -10)

Union Council	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908	10%	15%	15%	60%	45	
UC2	1,566	65	30%	7%	43%	20%	3	
UC3	1,399	98	9%	61%	30%	0%	3	
UC4	1,566	313	25%	25%	28%	22%	3	

Q.No.5)- In Pakistan, some of the children with polio cases are missed due to inaccessibility. What would be your advice to the polio team on how to improve access to these children using social mobilization and communication strategies? Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Answer 05) Challenges to Polio Education in Pakistan-

* The Major Barriers to Education in Pakistan are:
 Persistently a lot of children are missed in door to door vaccine drive, a high percentage of the environmental water samples testing positive of polio virus, vaccine refusal, misconception about polio vaccine, killing of polio workers and low performance of the health system.
 Cause of failure of polio vaccine in our country are:
 The reasons of failure of polio education in this region are:
 Insecurity within the health system are the reason of failure of polio education in this region.
 Awareness Campaign

about Polio Zoo Leads and development
of Peoples high Health System with
the help of Education in Polio
in Pakistan

Communication Challenges

- False and Misguided Propaganda about Polio Vaccine
- Religious
- Misconceptions (S)
- Demands
- Fears of Risk to the children ~~Health and~~ Life and Health
- Fears of Risk of Sterilization

Possible Strategies

- To Restore the confidence level of Parent at different channels
- To Involve ~~Social~~ Religious ^{Leaders} ~~Leaders~~
- To Involve ~~Relative~~ ^{Local} Influential
- Person of Locality - Relative of Refusal
- To Involve Family. Take help
- To ~~Publication~~ ^{Media} of Social Media and Portals ^{about} Positive advertisement ^{Electronic Media}
- and Speeches to the People about Polio

is publication of Brochures, flyers
Leaflets, Banners about Polio
vaccine and awareness sessions

- To involve Mosque Imam.
- To involve Local Government
Chairman and Elected Members
- To conduct Awareness sessions
about Polio Vaccine
- For So far Progress
To restore the confidence level of parents
has been restored this great extent
- The Refusal case is decreasing
Day by day -
- Vaccination children is increasing
Day by Day -

Ans 2) The Team ~~FLW~~ Training is very
essential for Front Line Worker (FLW)
and which the ~~important~~ important role
Capacity is developed. Front Line Worker
the UEPD is important role in
Team Training because they ~~build~~
Build-up Front Line Workers -

And the Vaccine coverage, same
Day NA coverage.
When a Team Training these items
are essential for Front Line
Worker -

- Training Agenda, Microplane

- Write Board -
- Maps, Ringed Maps, Board Maps
- Panflex, Tally sheet, Chalks
- Vaccine Carriers, Ice Packs
- Polythen Bags - Different kinds of

Woods VVM -

- Team Route Maps -
- Previous Campaign Issues -

The above items is essential for
Team Training without having No Capacity
Build FLW - 0

- When the Team Training is start
to Brief discussor about DeLio
Eodirection, To discuss strategies

Proper Campaign Quality is

- update UC Microplane
- Proper Team Training
- about 18 Years of 8 weeks
- About Line Work
- Proper Route Map
- Proper MP, Field Validation
- and Desk Validations

When a Flant Line Work
take a Proper Team Training
and No issues when the
go to in the field,

and then Vaccinated every
Under 5 years children in
Proper Manner.

No issue identified on during

3. ^{admission} identified during field
NT and No other issues
All the ~~institutions~~ they followed
and all the ~~institutions~~ is given

Ans 3) The data in the table below
our district, as a UCPO &
prioritizes which first UC is
Very High Risk

And I select the first UC I

Because A Large Number of Number
Refusal is Unknown - And they have
No proper Reason -

And Second UC 3 & 4 can prioritize
Because there a Lot Number of
^{Demand} ~~Reported~~ Refusal. (2)

And third ~~UC 2 Number 2~~ Number
UC 2 Because a Lot Number of
Reported Refusal.

And Last UC Number 4 which
is also Reported Refusal
Strategies for Refusal

* UC Profile
* 1st we Made UC Profile and
them involve community influential
Local Council, Elected Members

RSP, and Religious Cases in Future Refusal

- * Awareness Session about Polio Vaccine
- * False and Misconception, Misguided Propaganda about Polio Vaccine
- * ~~To~~ Fears of Risk to the children's Life and Health -
- * Fears of Risk of Sterilization
- * Religious, Misconceptions
- * Demand, Reputed, Campaign
- * To Restore the confidence level of Parent about Polio Vaccine in Adult Channels

Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Q.No.02 why Team Training is essential

Ans Team Training is very essential for Front line worker. for the developing of skill and gain new information about the current situation in a Team Training developed the capacity of Front line worker, for Team Training the most affected method as stall method. This method each and every participant were engaged in the Training and ^{know} every thing practically.

In-Team Training Front line Worker
Folish for new Campaign and gain
new information about Polio Cases

part a
What Role UCPO can play of the Capacity
~~of~~ Development of the Front Worker

a UCPO can play very important
Role for the Capacity of Front line workers
if a Team worker putting the data
wrongly on the tally sheet. Then this
the Responsibility of the UCPO to
correct the Tally sheet on the spot and
telling to Team Workers next data fill
in that way -

if Door marking wrong then correct
on the spot

if not following IPC not recording
zero dose then correct all issue
with Team solving on the spot.

Q Ans

UC₁ - High Risk

UC₂ - 2nd Risk

UC₃ - 3rd Risk

UC₄ - 4th Risk

UC₁ because of unawareness 60%
Repeated cap. 28% and awareness 5%

Demand Refusal 61%

Repeated cap again 43%

Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Q-2

Teams training is essential for the front line worker
In a team training session we can discuss the previous
Campaign mistakes which the front line worker done
mostly in polio Campaign.

During polio Campaign in evening meeting mostly mistakes
done by the worker in data collection.

The role of ucpo in team training is very important
because a ucpo can show the the previous Campaign
mistakes which they have find in the evening meeting
in telestreet analysis and also in field visits from
which can easily be point out the issues and mistakes
of the front line workers. and the all these issues
can be discuss in team training. (4)

The role of ucpo also very important in the
health facility because all the Govt staff did not
take the interest in all their activities all their
activities are perform by ucpo not only team
training ucpo meeting and field visit also

Q 5 - Answer

First of all It is very essential for a us area staff to make or developed a map for the whole us and then distributed it in areas like Area 1, 2, 3, 4 and then a Rout map can be developed from the all these maps. In which we can show the area in very micro level.

A social mobilization Activity and can also help us to cover the miss Area of the us.

In social mobilization Activities we can explain the importance of the essential Immunization.

In social mobilization we can also arrange a training session in community base -

1.5: How should multiple vaccines be administered to an infant in one session?

- a. Do not give IPV and other injectable vaccines at the same visit.
- b. ✓ Give oral vaccines first, then inject the infant with each injectable vaccine separately. ✓

Section A: Objectives

Q. No. 1- A)- Choose the Correct Answer from the following: 01 Marks for each-
(Total Marks-05)

5

1.1. What side effects can occasionally occur after IPV administration?

- a. Pneumonia
- b. Paralysis
- c. Minor side effects like soreness and fever

✓

1.2: Select the main reasons for introducing IPV in the national immunization program

- a. Reduce risks of an outbreak after type 2 OPV vaccine withdrawal (tOPV-bOPV switch)
- b. Help stop outbreaks quickly if type 2 virus is reintroduced
- c. Boost immunity against polio types 1 & 3 to protect populations and hasten eradication
- d. All of the above

✓

1.3: What is the preferred route of administration and injection site of IPV?

- a. Oral.
- b. Intramuscular into the thigh.
- c. Intramuscular into the upper arm.
- d. Intradermal into the upper arm.
- e. Subcutaneous into the upper arm.

✓

1.4: What information is provided by the immunization card?

- a. Child's date of birth
- b. Vaccines already received
- c. Vaccines needed for the future
- d. Next appointment for vaccination
- e. All of the above

✓

1.5: How should multiple vaccines be administered to an infant in one session?

- a. Do not give IPV and other injectable vaccines at the same visit.
- b. Give oral vaccines first, then inject the infant with each injectable vaccine separately. ✓

c. Mix all injectable vaccines into the same syringe

B): Mark as true or false (10 marks)

7

1: Anti polio campaign activities may include:

- a. Promoting use of antibiotics *False ✓*
- b. Routine immunization against polio *False X*
- c. Running awareness campaign against polio *True ✓*
- d. Campaign for improving personal hygiene & sanitation *False X*
- e. Mass vaccination to under six months children only *False ✓*

2: Most effective way to deal with families refusing polio vaccination to their children could be

- f. Using police force *False ✓*
- g. Using community influencer *True ✓*
- h. Providing information regarding effects of polio vaccine *False ✓*
- i. Providing incentives in form money to convert *False ✓*
- j. Threatening to take legal action against the family *False ✓*

- NIDs *National Immunizations Days ✓*
- SNIDs *Sub National Immunization Days ✓*
- LQAS *Lot Quality Assurance Sampling ✓*
- EOC *Emergency Operation Centre ✓*
- AFP *Acute Flaccid Paralysis. ✓*

Q. No-02)- Why team training is essential & what role UCPO can play in capacity development of the Front-Line Workers? (10 Marks)

Team Training is Essential For a Quality Campaign. it is a Key To a Successful Campaign. Proper Team Training can bring a positive change in the campaign quality. UCPO To Deliver and support Team Training with all his ability and Experience. (a session)

Q.NO.3)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -10)

Union Council	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908						
UC2	1,566	65	10%	15%	15%	60%	10%	45
UC3	1,399	98	30%	7%	43%	20%	54%	3
UC4	1,566	313	9%	61%	30%	0%	75%	3
			25%	25%	28%	22%	5%	3

Q.No.5)- In Pakistan, some of the children with polio cases are missed due to inaccessibility. What would be your advice to the polio team on how to improve access to these children using social mobilization and communication strategies? Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Polio teams should follow route maps to reach all HH. and by supervisors should ensure SM activities and strong communication with local community, elders, faith healers, etc influencers, elected representatives, Sectries, paterwari etc to know the geographical boundaries of the concerned ucs. To make sure hand shake policy at the boundaries at different level. At local uc level, and Dist level, provincial level etc. mapping of the hard and HRMP population is most important activity. To reduce the risk of missing children from vaccination. Local elders, influencers are helpful in identification of hard and for flying areas within a certain uc. Also through SM and communication with different stakeholders to make sure the awareness of people to bring their children to the nearby health facility increase their leads missed from polio vaccines can help in the polio eradication program. one person with strong determination and faith can reach every HH and every child even in a hard weather or geographical location.

... can play a vital Role in the Team Training

implementing Stall method and practical work
from the Participants. Thus assuring their capacity
building for a good SIA. In Team Training Participants
are aware from the recent ^{viral} epidemiology, Polio Cases are
Participants are sensitized about the Polio Disease &
The Role of PCW How important for Polio Eradication
They are prepared for the Quality Campaign. previous
Campaign mistakes/issues are discussed by ucpo with them

ucpo must also ensure that Catchup Training is Done
for the leftover in his supervision. in the last but
not the least Supportive, Result oriented Training is Done
is the key to success for a Quality SIA.

Question no: 3
Answer: High Risk ucs table

1 - uc4
2 - uc1
3 - uc3
4 - uc2

uc1 is in most High Risk uc as most number of Refusals are there in percentage - vice versa while only 5% awareness and 3% sm activities against this uc is 2nd number High Risk.

Because 60% Unknown Refusals Persist by this uc And Also in 2nd number Due to the percentage of Refusal per population - only 10% people awareness level, uc3 is on third number High Risk.

What would be your advice to the polio team on how to improve access to these children using social mobilization and communication strategies? Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Q.No. 3

① UC4-

Awareness about polio in mention UC is low. SIA should play a key role in awareness. A proper plan is very must to meet influencers, Elected members as well as refusal parents. SIA must have proper cell book of refusals children parents with their address and cell number. proper session needed.

② UC1. Less awareness in UC. On the other hand their are US SIA. Full monitoring of SIA. Team Training should improve UPEL members must involve to meet with refusal parents and induce to give polio drops to their kids. public awareness sessions must insure and public must aware on the consequence to not give polio drops to their kids

③ uc₂ must analyze their refusal data,
and should revisit refused parents.

④ uc₃ - Community Session is necessary
WPEC must meet with parents.

2/10

dr No - (2) Team Training ✓

Team Training is basic step for team members,
Because ✓

- (a) - to know current situation of polio cases as well as spreadings of polio viruses.
- (b) - to know new area if assigned to them.
- (c) - if assigned new area then improve/updated team-route map.
- (d) - to know about campaign i.e. NIP or SNIP.
Similarly types of polio OPV & vitamin in NIP.
- (e) - draw backs of previous campaign.
- (f) - HRMAP data aditer ✓ to ✓ and defaulter.
- (g) - Essential immunization ✓ to ✓ and defaulter.
- (h) - to improve skill by team members.
- (i) - to know about APC questions.
- (j) - method how to use OPV drops.
- (k) - how to cover PMCs.
- (l) - Cold chain - how team member can maintain cold chain of the OPV.
- (m) - After Team Training we can select a good, hardworking team for next campaign.

UCPO Role.

Union Councils Polio Officers can play an important role. But UCPO has the quality of best Painter. and he know the principle of Good Painter.

UCPO must aware about polio, essential immunization and public dealing.

- UCPO can help how to reduce number of refusal in UC.

- Can help to preparation and in updates team about map.

- he can easily define and introduce Telestration.

- he can well explain zero dose and AFP.

- UCPO should point out the weakness of each team and should try to overcome the weakness.

- On the basis of previous drawbacks UCPO can help to reduce the findings.

To reach every child we should make a proper plan. appropriate HR.
in Pakistan some of the children with polio cases are missed due to inaccessibility.
to eradicate polio from our country we must obey the following (u) steps.

2/10

- (1) Improv RT

Q No 2

Answer: Before Campaign of OPV or IPV

The team Training is very important for campaign.

Be cause in each campaign needs new instruction and development for vaccination.

There for Team Training is must for Front line worker.

UCPO is the ⁷ part of Team training.

ucpo monitring The team and Support The team

UCPO trained The Front Line worke when They needed for Support.

There for ~~the~~ ucpo is very important for

Team training monitring Supervision and Supports them.

Q103=

UC No1 Range No1

UC No1 is very high risk about refusal because SM 45 and Awareness is 10% = There for needed Awareness.

~~UC No3~~

Range No2.

UC No4 = UC No4 Secondly High

$\frac{3}{10}$

Risk because 3 SMs and Awareness only five percent 5%.

Therefore UC No4 is Second Range.

Range No3

UC No2 Recoded Refusal 65 and Awareness

54% but the number of Repeated campaign is very high There fore needed to Awareness and

Range of The UCs is 3rd.

UC 1104

Rank no 3

This UC is very Important but Recorded Refusal

98 and Awareness 75%.

Needs Awareness above 90% -

Q105-

Answer = when the children missed or the vaccination due to Hard Area or any reasons.

First of All we need community Awareness.

Parents Aware from Importance of vaccinations

There for each UCs need UCCO and SMS.

Seconedly Government Accountable person

Involve on palio program. $\frac{5}{10}$

Government Accountable persons are very responsible for palio program

to reach each & house.

There for Needs to Awareness and

involve Government Accountable persons

Q.No-02)- Why team training is essential & what role UCPO can play in capacity development of the Front-Line Workers? (10 Marks)

Q.NO.3)- Look at the data in the table below from your district, as a UCPO prioritize the UCs ranking 1 to 4 in order for polio high risk with reference to communication, support you answer with data. (Marks -10)

Union Council	Target population (<5 children)	Total refusals Recorded	Reasons for Refusal				Awareness about Polio	SM/AS Posted
			Religious	Demand	Repeated Campaign	Unknown		
UC1	7,977	908	10%	15%	15%	60%	10%	45
UC2	1,566	65	30%	7%	43%	20%	54%	3
UC3	1,399	98	9%	61%	30%	0%	75%	3
UC4	1,566	313	25%	25%	28%	22%	5%	3

Q.No.5)- In Pakistan, some of the children with polio cases are missed due to inaccessibility. What would be your advice to the polio team on how to improve access to these children using social mobilization and communication strategies? Please describe in outline form a basic strategy which might help reach these children with immunization outreach activities. (10 Marks)

Ans (5)

to access and vaccinate all children we must need to improve social mobilization activities in the community and to improve the map of polio team and highlight the hamlets in the area and write some notable people names in the teams map and also sun shops and madrasas

schedules might this
could improve the access
of a team for Rautama
immunization we need social
mobilization activities mask Announcements
to Engage Notable People
and all Govt Partner

Q No 2:
AMS =

importance of team training

For front line workers team training is very important to improve their

knowledge regarding polio vaccination
then for the need. Agenda of team

⇒ Polio cases in the country and
out of the country

⇒ stall methods.
to discuss All team members in
groups and discuss stall methods.

⇒ tally sheets *
to discuss tally sheets with
every team member especially.
New team and SW and
to keep special focus on

⇒ Route Map of team.
Make team..

to discuss Rout map of
Each team and clearing
all Boundries in their maps.

⇒ Practical Demonstrator
in team training Practical Demonstrator
is important when we do it this we
could improve the skill of a weak
team member. all the main components
of ^{training} ~~the~~ URPC can Develop in the training
~~it~~ if URPC give training more than
three hours.

in the Below table High Risk
UUs Analysis are listed

The first one is

⇒ 1st UC4 have most Refusal and
There are low percentage of
Awareness about policy violation.

⇒ 2nd High Risk Uu is UC3

This one also have number of Refusal
and low SM and Awareness
about policy.

⇒ 3rd High Risk Uu 1^{to} the one
908 Refusal. But Awareness
About Policy are very low.

⇒ 4th UC2 is in the last High
Risk Uu: Because Awareness
about policy is 84% But
SM activities not done
mostly.
