Dear Sir,

I would like to explain you that there is no network here and how I can share headcount on daily basis due to unavailability of network. I am always available on my duty station; PEOs and DSO check me time to time by unexpected visits. No one can imagine the absence of fifteen days and if this were the case, the vaccination campaign which has been running for two months would have been affected. The weekly zero report would not have been collected from health facilities and submitted on timely in DPCR. The entire first level supervisors even know that there is no network but reporting is beyond comprehension.

Dear Sir, you have also visited my Union council and you may have observed that there is no electricity and network in Ghiljo. If the network exists, why not I will be share headcount daily.

Sir, I think it does not show the lack of commitment to the noble cause and irresponsible attitude towards my job.

Best Regards Muhammad Usman UCPO
