

DATED 23/09/2020

Subject: **Explanation Regarding Negligence in TORs**

Respected Sir

Hoping you will be in the best of your health and Spirit. In response to your explanation letter regarding negligence in TORs I would like to inform your good self that Rhc Pashat zero report collection is assigned to Ucpo Pashat Jamshed Iqbal. On Dated 5th September Ucpo visit assign Active site and collect zero report from Incharge Dr Ghani Khan Sb without scanning OPD register and he issued zero report copy to Ucpo without Mentioning AFP Case. MO didn't inform our UC staff about AFP Case. He simply labelled Child as Injection Neuritis without contact number and proper address which is identified later on by PEO Sb.

Sir, Being Tcsp I know that Afp surveillance is an important Pillar of Polio Eradication and I have tried my level best to Search each and every Health Facility, HCPs, Imam Masjid, School Teacher, Social influentials, Drivers, Hakim's, Quacks Etc and this is why Our Tehsil surveillance indicators are upto the bench Mark and Insha Allah will try to achieve maximum indicators.

Sir I am visiting Rhc Pashat weekly but on 5th September (Tuesday Zero report Collection date) I was engaged in TOT training at DHO office and then attend Schedule training and pre Campaign activities allocated by DPCR team.

Sir I know that this case became inadequate due to lack of coordination among UC team and we did several meetings for the betterment of program and will initiate activities with more spirit and zeal and Insha All will never repeat this lack of professionalism and lack of coordination in future.

Thanks and kind regards

Your Sincerely

Mohammad Ibrahim

Tcsp Upper Salarzai
