Attachments: PEO-feedback-Unsatisfactory-Jamshaid Iqbal- Bajour.pdf

Dear Mr. Waseem,

This is with reference to below email, an explanation letter was issued to UCPO, Jamshed Iqbal on account of neglect of duty.

As per his response against the explanation letter, he collecting the AFP cases information from on duty doctor on daily basis. However, it is difficult to understand the doctors writing, so this case was skipped from him.

His response to the explanation is not satisfactory. Therefore, he is recommended for warning letter.

In case of any feedback regarding the same, please let us know.

Regards,

Nadeem Jan
Project Officer-PTPP CTC

Subject: FW: Explanation for negligence in TORs

Dear Mr. Waseem,

With reference to below email it is hereby to inform you that during field visit of PEO Bajour on 11th September 2020, he notice that an AFP case labelled as Injection Neuritis on 3rd September 2020 in OPD register. However, it is not reported in the weekly zero report/VPD report due to which the case became inadequate. The following PTPP staff has been recommended for explanation on account of professional negligence.

- UCPO, Jamshed Iqbal
- UCPO, Zahir Ullah
- TCSP, Muhammad Ibrahim

In case of any feedback regarding the same please let us know.

Thanks & Regards,
Shahid Ali
Regional Coordinator KP & KPTD-PTPP

AOA Respected all

As all of you knew that AFP surveillance is an integral part and one of the four pillars of PEI programme. In order to timely detect WPV/ cVDPV2 virus circulation and timely respond to any outbreak we have a well established surveillance system at district, provincial and national level. Active surveillance through visits to designated facilities by dedicated district level officers and passive surveillance through weekly zero reports duly signed by the facility incharge and supervised and collected by WHO staff is established for timely reporting of AFP cases.

RHC Pashat is a weekly active site visited regularly by DSO. The said facility was visited on 1st Sep. 2020 by DSO and on 11th Sep. 2020 PEO Bajour visited the facility to participate in UPEC meeting and also did the active site visit. While checking the facility OPD register the PEO noticed an AFP case labelled as Injection Neuritis on 3rd Sep 2020 but neither notified by the doctor on duty nor recorded in the weekly zero report/ VPD report and the case has become inadequate due to the negligence of the doctor on duty as well as negligence of UCPOs/TCSF of the said facility as coordination with the facility staff for AFP surveillance is a part of their TORs. The concerned doctor on duty and health facility incharge is intimated through DHO office to explain their position for negligence. You are hereby directed to explain your position for negligence in TORs and lack of professionalism and lack of coordination for timely reporting of AFP case due to which an adequate case has become inadequate.

Best Regards

--

With Much Gratitude

From the desk of

Dr. Walid Hassan
